Summary

Senior Frontend & Fullstack Developer with expertise in JavaScript, React, and Next.js. Proven track record in optimizing performance, enhancing user experiences, and delivering impactful web solutions. Passionate about driving meaningful change through technology and collaboration.

Experience

500Designs   May 2024 - Present
Senior Frontend Engineer   Remote (US)
⧉ https://500designs.com

- **Collaborated in developing an AI chatbot RAG system** using OpenAI and open-source LLM models.
- **Contributed to building a housing real estate platform** and creating research dashboards for data-driven insights.

Zesty.io   May 2022 - May 2024
Frontend Engineer   Remote (San Diego)
⧉ https://zesty.io

- Developed and optimized a marketing website, improving speed and web traffic while bringing documentation processes in-house to increase control and efficiency.

- Created an in-house AI RAG system for documentation and coding standards, and contributed to implementing new features in Zesty.io's headless CMS.

LewAndDowski (Upwork)   January 2023 - February 2024 (Freelance)
Senior Frontend Developer (Lead)   Remote (US)
⧉ https://seatsplit.com

- Led frontend development for a ticket consignment portal, focusing on user experience and ticket sales efficiency.

- Delivered a user-friendly interface, a robust ticket sales system, and improved service offerings, aligning with client objectives.

Cocompetence (Kyneo.io)   January 2022 - January 2023 (Freelance)
Fullstack Developer   Remote (Sweden)
⧉ https://kyneo.io

- Collaborated on building a responsive dashboard and React Native mobile application, aligning with Figma designs and client requirements.

- Delivered a successful UI implementation that met both functional and backend needs, resulting in high client satisfaction.

Cocompetence (Lagshopen.se)   June 2021 - February 2022 (Freelance)
Fullstack Developer   Remote (Sweden)

- Engineered a sophisticated dashboard, robust storefront, and comprehensive ordering system with seamless integration to Swish payment gateway.

- Achieved success with over 200 teams and 1,000+ users onboard, contributing to significant revenue generation for the client.
